

## AWWA NJ Presents

### “Understanding Complex Permit Requirements in 21st Century Drinking Water and Wastewater Operations” February 21, 2012

#### Location:

The Seminar will be held Tuesday, February 21, 2012 at:  
Middlesex County Fire Academy  
1001 Fire Academy Drive  
Sayreville, NJ 08872

#### Who Should Attend?

Superintendents, managers, compliance specialist operators, environmental engineers, and anyone interested in MAINTAINING COMPLIANCE IN A CHANGING ENVIROMENT. Don't miss out!

#### Registration Fee:

\$45.00 per person for AWWA members, \$55.00 for nonmembers, and is free for full-time, university-matriculated students. Registration fee includes continental breakfast, lunch and any handouts or proceedings. Register using the form on the back side of this sheet or online at [www.njawwa.org](http://www.njawwa.org)

#### Summary:

As regulations continue to become more stringent and more comprehensive approaches are being defined by regulators, the list of both core business and peripheral compliance points continue to develop. As technology advances to strengthen regulation, it also strengthens compliance management in areas for which you may not expect. As we increase both our focus on sustainability and our ability to endure operational visibility, information presented in this seminar is ever more valuable to the success for effective environmental management.

#### Continuing Education Credits:

This course is requested to be approved for 6.0 TCH's for water and wastewater licenses. Course Approval # is pending.
