*New Jersey's Authoritative Resource  
for Safe Drinking Water*

## COMMUNICATIONS

Promotes the AWWA NJ as the authority on water quality and other drinking water matters in New Jersey and informs the public on water quality and other drinking water issues.

Public Information Committee:

Communicates with public interest groups, other professional organizations and mass media in the State; coordinates Drinking Water Week activities; works to improve media exposure of AWWA.

Publications Committee:

Responsible for creation and publication of AWWA NJ newsletter, *Pipeline*, and content of the Section website at [www.njanmwa.org](http://www.njanmwa.org).

## CONFERENCE & RECOGNITION

Develops programs, awards and associated activities which are structured to promote the professionalism, technical expertise and networking of AWWA NJ members while promoting the public awareness of the water works industry in New Jersey.

Conference Committee:

Coordinates with other Conference committees to produce Spring and Fall Conferences; coordinates local arrangements.

Technical Program Committee:

Develops technical program at Spring and Fall Conferences.

Manufacturers and Associates Committee:

Coordinates vendor participation in Section activities.

Conference Registration Committee:

Conducts registration activities for the Spring and Fall Conferences.

Recognition/Awards Committee:

Coordinates member recognition with Section and National awards.

**Get involved – join an AWWA NJ Committee!**

*Contact a Board Member or the Committee Chair for more information*

## EDUCATION

Provides AWWA NJ members with educational and professional development activities for the improvement of all aspects of the water utility industry.

Education & Professional Development

Committee: Develops informational and accredited programs for member professional development; oversees continuing education credit program.

Research & Technology Transfer Committee:

Encourages and sponsors research and dissemination of research information among members.

Operational Risk Committee:

Provides safety and security related information and educational programs.

## SECTION OPERATIONS

Perpetuates, improves and enhances the management of the Section; guides AWWA NJ by developing and maintaining the Strategic Plan, by increasing active membership, and by providing information about the organization.

Board of Trustees:

Sets policy for AWWA NJ; supervises, supports and provides guidance for committee activities and Section programs.

Information Technology Committee:

Evaluates Section needs for new and improved information technology.

Membership Services Committee:

Supports recruitment and retention efforts; plans member social activities; encourages diversity among Section membership and leadership; supports involvement of young professionals in the Section and the industry.

Strategic Planning Committee:

Regularly reviews and updates the Section Strategic Plan.

## LEGISLATION & REGULATION

Monitors legislative, regulatory, and policy issues at State and federal levels of government, and provides input to regulatory and legislative authorities with the assistance of AWWA NJ members and coalitions of other State water and environmental organizations.

Water Utility Council:

Maintains program for monitoring and influencing legislation and regulations in the State that impact water utility systems, their environment and their customers; communicates with AWWA NJ membership on legislative and regulatory matters.

## OUTREACH

Works for broad-based participation in both the water profession and AWWA NJ activities.

Small Systems & Operators Committee:

Works with other committees to support and encourage small system participation in AWWA NJ activities.

Student Affairs Committee:

Works to promote the water industry to students, through school chapters, networking opportunities and educational and scholarship programs.

Water for People Committee:

Undertakes fundraising activities to support the National Water for People organization.

## AD HOC

Retired Professionals Committee:

Works to encourage the involvement of retired water industry professionals in the Section and to utilize their valuable expertise.

Social Media Committee:

Coordinates the Section's use of social media resources and evaluates ways for the Section to grow communication and outreach to members and nonmembers.
